- 100 plants in 25 varieties: 15.00

Hardy Perennials from Seeds

Many perennials can be propagated only by cutting or division; but there are plenty of good varieties which, with proper care, can easily be raised from seeds, and, if started early, a large percentage will bloom the first season. To many plant-lovers it is very interesting and fascinating to watch their little favorites from the very beginning. I can offer you a good collection of seeds grown in my nursery, of the most popular kinds.

- Varieties which produce plenty of seeds, 5 cts. per pkt.
- Varieties which are more difficult to raise, 10 cts. per pkt.
- Novelties, according to their value, 20 cts. and 25 cts. per pkt.

MY SPECIAL OFFER: 12 pkts. of popular varieties, 25 cts.

Full instructions for planting, growing, and setting with every order.

J. Horace McFarland Company, Harrisburg, Pennsylvania
